

Students in grades 9-11 received information regarding course selection on Thursday, February 15, 2018. The information highlights the process for course selection. Core courses for next year will be based on teacher recommended courses or AHS graduation requirements. If you have any questions, please contact your child's guidance counselor.

Please review this information carefully with your child and select any elective courses that are available to you. Please note that final enrollment in classes is based upon availability and fit with your individual child's schedule which is why they will be asked to choose alternative courses.

Course selection will be completed with Guidance counselors using the portal. Students will choose their elective courses during the course selection window of March 5-16, 2018.
