

Informational Bulletin for Students and Parents

1. STUDENT RECORD REGULATIONS

The State Department of Education requires each school department to follow established regulations in maintaining student records. The following is a brief summary of those regulations.

A student's records consist of the Student Transcript, which is kept virtually indefinitely, and the Temporary Record, which is destroyed five years after the student leaves the school system. The Student Transcript contains only the minimum information necessary to reflect the student's educational progress. This information includes name, address, course titles, grades, credits and grade level completed. The Temporary Record contains the majority of the information maintained by the school about the student. This includes such things as standardized test results, class rank, school sponsored extra-curricular activities, evaluations and comments of teachers and counselors and other such information.

The records of all students are covered by the state regulations. The persons who may exercise rights under the regulations are as follows:

- a. If the student is under the age of 14 and has not yet entered the ninth grade, the student's parents may exercise these rights.
- b. If the student is from 14-17 years of age or has entered the ninth grade, the student and/or the student's parents may exercise these rights
- c. If the student is 18 years of age or over, the student alone may exercise these rights.

Students and parents (as specified above) have the right to examine the Student Transcript and the Temporary Record upon request and the right to make additions and to request deletions. They also have the right to receive copies of any part of the record.

Except for authorized school personnel and certain other exceptions named in the State regulations, no individual or agency may have the right of access to the School Transcript or the Temporary Record without the student's or parent's permission.

During the school year, publication may be made of a student's name, class, participation in officially recognized activities and sports, degrees, honors, awards and post-high school plans. Should the eligible student or parent object to such publication such student or parent should notify the school promptly.

If you have any questions regarding student records you may contact your school's office.

2. EQUAL EDUCATION OPPORTUNITIES ACT - 622

Chapter 622 applies to equal education opportunities for all students of public schools. Every course taught must present fairly the culture, history, and contributions of people from different races, nationalities, sexes, religions and colors. The content and objectives of all courses, the book used, and the materials and teaching methods used should show people of all backgrounds in a variety of positive roles. All courses are open to all students regardless of age, color, disability, national origin, race, religion, sex, gender identity or sexual orientation.

In the area of co-curricular athletics, all students must have the opportunity to try out for all teams. Schools must insure that activities which are composed solely or predominantly of members of one sex must receive support services, such as practice schedules, facilities, travel, and publicity comparable to similar activities composed of members of the opposite sex.

Occupational information shall include representatives of both sexes and of minority group members in a broad variety of occupational roles. Schools shall not permit materials to be used to recruit students for employment, including training, that contain a preference for individuals of a particular age, color, disability, homelessness, national origin, race, religion, sex, gender identity or sexual orientation.

8. MCKINNEY-VENTO HOMELESS EDUCATION ASSISTANCE ACT

To the extent practical and as required by law, Abington Public Schools will work with homeless students and their families to provide stability in school attendance and other services. Special attention will be given to ensuring the enrollment and attendance of homeless students not currently attending school. Homeless students will be provided district services for which they are eligible, including pre-school programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs, gifted and talented programs and school nutrition programs.

Homeless students are defined as lacking a fixed, regular adequate nighttime residence, including:

1. Sharing the housing of other persons due to loss of housing or economic hardship;
2. Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodation;
3. Living in emergency or transitional shelters;
4. Being abandoned in hospitals;
5. Awaiting foster care placement;
6. Living in public or private places not designed for or ordinarily used as regular sleeping stations or similar settings;
8. Migratory children living in conditions described in the previous examples;
9. Unaccompanied youth;

The Superintendent has designated the Director of Student Services to be Abington Public Schools' liaison for homeless students and their families.

To the extent feasible, homeless students will continue to be enrolled in their school of origin while they remain homeless or until the end of the academic year in which they obtain permanent housing. Instead of remaining in the school of origin, parents or guardians of homeless students may request enrollment in the school in the attendance area in which the student is actually living, or other schools. Attendance rights by living in attendance areas, other student assignment policies, or intra and inter-district choice options are available to homeless families on the same terms as families residing in the district.

If there is an enrollment dispute, the student shall be immediately enrolled in the school in which enrollment is sought, pending resolution of the dispute. The parent or guardian shall be informed of the district's decision and their appeal rights in writing. Abington Public Schools' liaison will carry out dispute resolution as provided by state rule. Unaccompanied youth will also be enrolled pending resolution of the dispute.

Once the enrollment decision is made, the school shall immediately enroll the student, pursuant to district policies. If the student does not have immediate access to immunization records, the student shall be admitted under a personal exception. Students and families should be encouraged to obtain current immunization records or immunizations as soon as possible, and the district liaison will assist in the process. Records from the student's previous school shall be requested pursuant to district policies. Emergency contact information is required at the time of enrollment consistent with district policies.

Homeless students are entitled to transportation to their school of origin if the school where they are to be enrolled. If the school of origin is in a different district, the districts will coordinate the transportation services necessary for the student, or will divide the cost equally.

Abington Public Schools' liaison for homeless students and their families shall coordinate with local social service agencies that provide services to homeless children and youths and their families; other school districts on issues of transportation and records transfers; and state and local housing agencies responsible for comprehensive housing affordability of homeless students in schools, family shelters and soup kitchens. The district's liaison will also review and recommend amendments to district policies that may act as barriers to the enrollment of homeless students.

The Abington Public School System is committed to ensuring that all of its programs and facilities are accessible to all members of the public. We do not discriminate on the basis of age, color, disability, homelessness, national origin, race, religion, sex, gender identity or sexual orientation.
